NATIONAL POLICE DEFENSE FOUNDATION CHILD FINGERPRINT CHART

R.THUMB	R.INDEX	R.MIDDLE	R.RING	R.LITTLE
L.THUMB	L.INDEX	L.MIDDLE	L.RING	L.LITTLE

Instructions for Fingerprinting

Practice on a sheet of paper before applying fingerprints to this chart. Fingerprints are acceptable for identification when the center of the fingerprint is clear and not smudged. To avoid a smeared fingerprint, do not roll the finger.

1. Peel away fingerprint strip at tab into two sections.
2. Place strip on a flat surface, ink side up.
3. Hold child's finger rigid; place lightly on ink strip, then press finger lightly over proper chart location.
4. Clean up with soap and water.

Tape Hair Sample Here (DNA Sample)
